This car was owned by my mother, the little old lady who only drove it to church, the grocery store, and occasionally TJ Maxx when she was in good health during the first year. I already own a Honda with a Hatchback so this winner is up for grabs now. It's super clean, she was a non-smoker, not a pet owner, and stayed on top of her maintenance!

Mileage: 15,993

Automatic Transmission

included Key Fobs
